SANTA ANA P&DC EMPLOYEE  
STAND UP TALK

**Saturday & Selected Monday Holiday Operational Changes Coming to  
Santa Ana P&DC January 17, 2015**

The Postal Service is continually looking for opportunities to reduce operating costs and improve our financial condition, especially during low-volume processing periods. To this end, we will implement a relocation of operations on Saturdays & Selected Monday Holidays for outgoing letters and flats currently processed at the Santa Ana P&DC. These operations will move to the San Diego P&DC effective Saturday, January 17, 2015.

What does this mean?

It means all letter and flat collection mail generated in the Santa Ana District on Saturdays and selected Mondays will no longer be cancelled or receive primary processing on Tour 3 at the Santa Ana P&DC that day. This includes collection mail from Industry, Anaheim and Long Beach that we currently process at Santa Ana on Saturdays & Selected Monday Holidays. Processing of this mail will be consolidated on Saturday and selected Monday Holiday into the San Diego P&DC. The operations affected include:

- AFCS 200 cancellations
- DIOSS outgoing operation 481
- DBCS-OSS outgoing operation 271
- DBCS Outgoing operations 891 and 892
- Manual letter operations 030/040
- AFSM 100 outgoing primary and secondary operations 141 and 142
- Manual flat operation 060/070
- HSTS Outgoing Operation 198

Processing of outgoing parcels will remain at the Anaheim P&DF.

Naturally, a change of this nature will affect the staffing requirements for Tour 3. As the plans for this change are finalized, you will be provided additional information as soon as it is available.

This is a significant cost savings move that will benefit both the Santa Ana and San Diego Districts. Thank you in advance for your support during the implementation of these changes.
