Dear Mark:

The Postal Service continues to make changes to its transportation network to meet its objective of increasing operational efficiencies.

Surface Transfer Center (STC) operations in three (3) locations will be insourced to reduce reliance on contractor performance. The Indianapolis IN, Memphis TN, and Salt Lake City UT STCs will close no sooner than September 2023.

It has been determined that postal operations have the capacity to perform this work while delivering the same level of service to our customers.

Please contact Paulita Wimbush at extension 4042 if you have any questions.

Sincerely,
